

Werrington Brook Improvements

Your brook, your
environment, **your views**

How can you get involved?

We are looking to work with local people to improve the way the environment is maintained and managed to ensure long-term changes. For the project to be a success, we vitally need the support of local people in order to determine how to get the best out of our river environments.

Volunteers:

There's a whole range of ways volunteers can help, so there's sure to be something for you to get involved in – whatever your interests. Regular events are organised in conjunction with RiverCare, where you can help with activities such as taking photos of the developments, observing the area, monitoring wildlife and taking water samples.

Businesses:

We're expecting the results of our work to increase the desirability of living and working in the area – boosting footfall, business generation, investment and even revenue. There are many ways your business can help. These include contributing financially, working with us to find cost-saving methods of reducing your environmental impact, and encouraging your employees to volunteer with us.

If you are interested in hearing more about the project or getting involved then please get in touch. Contact werringtonbrook@pect.org.uk.
